

TRACT DISPLAY CASES

Several churches and people have asked about Display Cases for our "Map" tracts. We recommend you get ready-made plastic Literature Holders available at Office Supply Stores such as Staples, Office Depot and Office Max. Our favorite cases as shown here are from Office Max. These cases are also predrilled for hanging on walls. If you don't have an Office Max near you, they can be ordered online (as we have done). I took these photos of their cases which we use.

This is the Single Case that holds about 60 of our Map tracts without crowding. As you can see, the cases position the tracts with the top slightly angled back to help keep the tracts from falling over in the front.

Go to: www.officemax.com

In the Search Box enter: 20334611

That will bring up this item currently on their web page.

The case size is 4 3/4" wide, 7 3/4" High and 3 1/4" deep (front to back). They are currently priced at \$3.19 each.

This is the 4-Tier Case that holds all 4 of our Map tracts, about 30 in each pocket. The titles will show better if the "Battle Map" is placed in the bottom pocket, as shown here.

At www.officemax.com, in the Search Box enter: 20334675

That will bring up this item currently on their web page. The case size is 4 7/8" Wide, 10" and 8" deep (front to back). They are currently priced at \$12.99 each.

I think you will be as pleased with these cases as we are.
